

# Internship UI/UX Design (Websites)

We are looking for an intern as of March 2016 who has a creative mind and a passion for design to become part of our outstanding & international team in our HQ in Munich. If you have the drive to power a shopping machine with 6 mio users/month and working on details spurs you on - then Stylight is the place to be for you.

## Your Responsibilities

- You scribble your ideas, design pixel-perfect layouts and strive for a self-explaining interface for our Stylight users.
- You create prototypes of your work and test it with our UX researchers to get the best out of your design.
- You develop creative ideas and concepts with our designers to bring Stylight to the next level.

## Your Profile

- You already learned what matters when it comes to interaction design.
- You have finished your basic studies in (Graphic-, Communication- or Media-) Design and are available for 6 months.
- You strive for perfection and love caring about details in your work as much as letting your creative ideas run wild.
- You are in good command of design tools like Sketch, Adobe Photoshop and Illustrator.
- Ideally you already gathered basic experience in prototyping interactive mockups.

## Your Team

- We're designers, developers and product managers creating the fastest growing online fashion magazine in Germany. We take care of Stylight's website to work, look and feel great.
- We shepherd products from concept through launch to life. We are running lean. Build, measure, learn.
- We optimize the user experience and monetization of our website.
- Together with our developers and UX researchers we are an agile team, doing sprints of two weeks.
- We love code as much as we love Sketch and Photoshop.

## Why Join Stylight?

We asked our current interns at Stylight, here are their top responses:

- A very open & friendly team with an international team spirit.
- Responsibility right from the start and plenty of room for own ideas in a creative atmosphere.
- Fruit, yoghurt, and cereals every day.
- Working in the most beautiful office in the heart of Munich with its top notch landscape, architecture, museums, restaurants & bars. In terms of life quality, it has been reported to be in the top 10 of the world.
- Want to know more? Check out: [www.stylight.com/About](http://www.stylight.com/About).

## Up for the Challenge?

Does that sound like the perfect internship for you? Then do not hesitate and apply today on [www.stylight.com/jobs/](http://www.stylight.com/jobs/). We are looking forward to receiving your complete application (portfolio URL/PDF, cover letter, CV, references and certificates)! Your contact person: Maie de Smedt
